 500 m²

SILS: Industrial Warehouse in Sils of 500m². The warehouse is located on Calle Tallers. We have three entrances to it, if desired and as seen in the photos, the internal space can be divided into three different or independent naves. On the front there is a lot of space to unload and park and it has a large back and front patio. Ready to use as convenient and very well located, since it is located less than a minute from the AP 7 and can go in the direction that is most convenient, it is in the Polígono industrial en Sils, between Girona and Barcelona. We can buy the complete pack of 1,500m² or just one warehouse or two warehouses, each one independent of the other of 500m² with its front and rear patio. The structure is made of concrete and the roof has insulation. The rear door 2'50m wide by 3m high, this backyard consists of about 450m².

The front door is 5m wide and 4'70m approx. high, this front patio has 150m². The ship in its entirety has an office and a bathroom. Its inner part offers about 31m wide and 45 long approx.
